DETAILED ACTION

Claims 1-3 and 9-17 are currently pending in the instant application.

Election/Restrictions

The Markush group set forth in the claims includes both independent and distinct inventions, and patentable distinct compounds (or species) within each invention. However, this application discloses and claims a plurality of patentable distinct inventions far too numerous to list individually. Moreover, each of these inventions contains a plurality of patentable distinct methods, also far too numerous to list individually. ***For these reasons provided below, restriction to one of the following Groups is required under 35 U.S.C. 121***, wherein a Group is a set of patentable distinct inventions of a broad statutory category (e.g. compounds, methods of use, methods of making, etc.):

- I. Claims 1-3 and 9-17 drawn to a compound of the formula I [wherein R³, R⁴, and N form pyrrolidinyl] classified in class 548 and several subclasses.
- II. Claims 1-3 and 9-17 drawn to a compound of the formula I [wherein R³, R⁴, and N form morpholinyl] classified in class 544 and several subclasses.
- III. Claims 1-3 and 9-17 drawn to a compound of the formula I [wherein R³, R⁴, and N form piperidyl] classified in class 546 and several subclasses.
- IV. Claims 1-3 and 9-17 drawn to a compound of the formula I [wherein R³, R⁴, and N form three-to-eight-membered heterocycle] classified in classes 540, 544, 546, 548 and numerous subclasses.
- V. Claims 1-3 and 9-17 drawn to a compound of the formula I [wherein R¹ to R⁵ are non-heterocycle] classified in class 564 and several subclasses.

The timely submission under 37 CFR 1.129(a) filed on 02/10/2006 is not fully responsive to the prior Office action mailed on 12/09/2005 because Applicant has failed to elect an Invention group (including an election of species). Since the submission appears to be a *bona fide* attempt to provide a complete reply to the prior Office action, Applicant is given a shortened statutory period of ONE MONTH or THIRTY DAYS from the mailing date of this notice, whichever is longer, to submit a complete reply in order to avoid abandonment. This time period may be extended pursuant to 37 CFR 1.136(a).

Restriction is required under 35 U.S.C. 121 to one of the above identified patentably distinct groups. A reply to this requirement must include an election of a single group for prosecution on the merits, even if this requirement is traversed, 37 CFR 1.143. Any reply that does not include election of a single group will be held nonresponsive. **Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits** to which the claims shall be restricted if no generic claim is finally held to be allowable that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Remarks

Current status of claims 11-17 has not been identified in "This listing of claims" [Response, page 2] filed on 02/10/2006. It is requested to identify the current status of the claims 11-17 (canceled or pending) in the next communication.
